Sustainability data sheet

Hesse Priming stain BG (colour tone) for spraying and wiping off

Hesse Lignal
inspiring you

Product description

Hesse Priming stains BG combine pigment and dyestuff properties in a beneficial manner: the brilliance and luminosity of the dyestuffs are complemented by the levelling capacity and enhanced light fastness of the pigments. The emphasis of the pores can also be influenced at the same time. The result is a brilliant to slightly muted stain appearance without prominent emphasis of the pores. The colour tone to be achieved depends on the type of wood.

Areas of application

For staining with subsequent over-painting in industry and handcrafting of furniture, stairs and doors.

Sustainability score

Proportion of fossil raw materials	5.71 %
Proportion of mineral raw materials	0.1 %
Proportion of renewable raw materials	0 %
percentage of recycled raw materials	0 %
Share of miscellaneous natural sources	0 %
water content	94.15 %
Non-volatile proportion	0.1 - 37.1 %
VOC EU	0 - 36.47 %
VOC FR	C

Sustainability data

SVHC	No
CMR substances (KAT 1A and 1B)	not included
Highly hazardous to the environment	No
Free of aromatic substances	Yes
Phthalate softener	not included
Skin corrosive	No
Harmful to organs	No
Biocides	Pot preservative included
Decopaint compliant	No

Disposal

Lacquer

According to the currently valid Waste Catalogue Ordinance, it is necessary to assign waste to a specific waste type according to its origin. It is therefore not possible to clearly define a waste code number.

packaging

Packaging that is completely empty should be recycled. However, packaging that contains residues of hazardous substances or is contaminated by these substances, as well as packaging that is not completely empty, must be disposed of properly and without risk in accordance with the regulations for the respective product.

General information about the company

Hesse Lignal takes responsibility for future generations and is actively committed to protecting people and the environment. The company demonstrates this not only by phasing out solvents for its own paint systems by 2030.
Hesse Lignal is committed to using all resources responsibly and as sparingly as possible in all areas, thus setting an example for the industry.

ISO certification

- Quality management ISO 9001
- Energy Management ISO 50001
- Environmental management ISO 14001
- Occupational health and safety management ISO 45001
